I am grateful for my parents because they take care of me very well. Also grateful for my teachers because they help me learn my school work. I am grateful for my home and the games that I play with my friends.

I am grateful for my pool that I got this summer because it helped me to learn to swim. I Am grateful for my own room because I spend a lot of time in it. I am grateful for my brothers and sister who help me to grow up.

## What I am thankful for and why

I have a lot of things to be thankful for but my top 5 are my family, my friends, my teachers, my school but most importantly God. So you ask where those are top five more than my top five because first off my family is always there to support me and everything that I do and help me. My friends are there to be my friend, be by my side whenever and have fun together and just laugh together. My teachers are very very helpful because they taught me everything that I know since today and I'll have a lot more teachers to go with me through college. I'm thankful for my school because without me going to school I wouldn't know a lot that that I'm learning about today. It's really exciting because there are a lot of people in there to help and guide you throughout your learning experience. And most importantly I'm thankful for God because he created all of us and he is the one I look up to most and I love him so much without him we wouldn't actually be alive right now we wouldn't be here.
